

## Features & Benefits

Gough buckets are designed to handle the tough AND sanitary applications. With Several bucket sizes available, product throughputs can be handled gently without Spillage. A variety of bucket materials provide the right bucket for the right application.

Buckets overlap at infeed to prevent spillage and system contamination.

Buckets can be engineered to do a terminal end tip or single or Multiple selective tipping (i.e. 360°) while still returning to infeed in the upright position.

*Tough, Gentle, Clean*

## Technical Description

Bucket sizes available from 9" to 48" wide. Capacities range from 0 to 2500 ft<sup>3</sup>/hr.

Buckets utilize heavy-duty trunnion design and pivot pins, extending component life.

Buckets are available in stainless steel, carbon steel, and plastic. Custom designs and materials are also available.

Bucket components are replaceable to reduce maintenance costs.

*Tough, Gentle, Clean*
