

TEXTURED BUCKETS

Improves Product Release

Does your product stick to the inside of your bucket instead of releasing? Gough has the solution with the introduction of our [textured bucket](#) to improve product release.

Injection molded buckets with raised inside pattern decreases surface contact and tension, minimizing the coefficient of friction, allowing easier product release from the bucket.

9" & 18" S Series Swinglink Buckets

Bucket advantages are:

- Increased strength and rigidity
- Improves impact characteristics
- Longer life with abrasive products

Inside Textured Bucket

Bucket material available in:

- FDA approved standard white polypropylene
- FDA approved glass filled white polypropylene
- Black and natural, Nylon 66 with fiber filler, heat resistant to 250F for industrial applications

For more information, to receive sample buckets, or to place an order to replace your buckets; Contact Mr. Chris Villalobos direct at (704)319-5126 toll free 1-800 Gough-64, fax: (704)392-8706 or chrisv@goughecon.com.
